**Re: Light Up Teal request**

**Ms. Kathleen Somers  
Group Leader for Canada TNA**

Dear Ms. Somers,

In response to your letter concerning the initiative Light up Teal, on behalf of the Mayor of Krakow Mr. Jacek Majchrowski I would like to assure you that he recognizes the significance of this project aiming at raising awareness for Trigeminal Neuralgia.

Technical restrictions make illuminations in teal impossible and Krakow is already taking part in the Annual Light It Up Blue campaign on the World Autism Awareness Day so it would be extremely difficult to illuminate buildings in blue on 5<sup>th</sup> October as it may cause a misunderstanding which we need to avoid given the importance of both initiatives.

Nevertheless, to mark the 5<sup>th</sup> International Trigeminal Neuralgia Awareness Day, articles about TN will be published both on the "Magiczny Krakow" (Magical City – [www.krakow.pl](http://www.krakow.pl)) and Krakow International Relations "Kraków Otwarty Na Świat" (Krakow the Open City – [http://www.krakow.pl/otwarty\\_na\\_swiat](http://www.krakow.pl/otwarty_na_swiat)) official City web sites at the beginning of October 2017. My office will contact you sending the detailed information and links.

Kind regards,

Anna Frankiewicz  
Director of Mayor's Office  
Municipality of Krakow
